PROFESSIONAL SUMMARY

I am a web developer passionate about building problem-solving web applications that enhance organisational productivity. With three years of experience, I specialise in delivering client-driven solutions, creating mobile-responsive websites, and ensuring high standards in design, user experience, and performance optimisation.

KEY SKILLS

- I have a deep understanding of HTML, CSS, JavaScript, React, and version control (GitHub).
- I ensure effective collaboration with clients and teams to understand requirements and deliver tailored web solutions.
- I can work independently and learn quickly.
- I identify and resolve technical issues, optimising website performance and functionality.
- Successfully managed multiple projects, meeting deadlines while maintaining quality and efficiency.
- I ensure high-quality, bug-free code, adhering to best practices in web design and development.

IT SKILLS

HTML, CSS, Tailwind CSS, JavaScript, React.js, GitHub, WordPress, Bootstrap, Next.JS, TypeScript, Django, MySQL, PostgreSQL, PHP

WORK EXPERIENCE

Web Developer Volunteer | Wykei, Remote (based in London)

May 2025 till date

Web developer | Cotton Digital, Lagos, Nigeria

Dec 2024 to Feb 2025

Cotton Digital is an IT and software development company. They are proficient in building and managing websites for clients of different organisations.

- I was responsible for troubleshooting and resolving all software-related issues in the organisation.
- Developed the company's corporate website using HTML, Tailwind CSS, and JavaScript.
- Hosted the website and ensured fast page load with seamless user experience.
- Increased the company's online presence with seamless organic traffic.

HNG Tech Internship | HNG Tech, Remote (Lagos, Nigeria)

Jul 2024 to Aug 2024

HNG Internship is a fast-paced boot camp for learning digital skills. It's focused on advanced learners and those with some prior knowledge, and it gets people into shape for job offers. In the HNG boot camp, you work in teams to build apps and solve problems.

- Actively contributed to building AIForHomework – an AI-enabled web app that can help students solve their homework.
- The front end was built with React.js, TypeScript, and Tailwind CSS.
- I wrote reusable code and created components that enhance development efficiency.
- I successfully translated UI/UX design to testable code.

- I completed all the tasks in the HNG11 internship from stages 1 – 10.
- I developed an e-commerce website ([timbu-shop](#)) using Timbu API at the HNG11 internship as part of my stage two task

Frontend Developer | Hyggex Digital Services Private, Limited, Remote (India) Oct 2023 to Jan 2024

An edu-tech company specialises in building educational-related websites to improve the efficiency of school management.

- I implemented API integration, ensuring seamless data flow.
- I maintained a good relationship with the UI/UX and backend team, which enhanced an easy workflow.
- I translated UI/UX designs to a visually appealing website using React.js and Tailwind CSS.
- I carefully troubleshoot codes to ensure optimum web performance.

Software Engineer | Swifttalk Limited, Lagos, Nigeria

Jan 2022 to Jul 2023

A network and Internet Service Provider company, which has demonstrated expertise in managing enterprise networks and internet services.

- I developed and managed the company's corporate websites.
- I troubleshoot and resolve website-related issues.
- I installed and configured WordPress plugins and themes, increasing the company website's SEO by 30%.
- I reduced page load time by 70%, improving user experience and boosting organic traffic by 60%.

EDUCATION & QUALIFICATIONS

University of Greater Manchester - Master's degree (Distinction) - Robotics Engineering 2026

Nnamdi Azikiwe University – Bachelor of Engineering (BE) 2021
